Note: NT = New topic for ISSP SI 2019; question numbers refer specifically to the numbering employed in this document; *One of the subjective social class items is a standard ISSP background variable (top-bottom scale), and has thus not been included in the item count.

GENERAL NOTES TO ISSP MEMBERS

1. All notes which do not form part of the questionnaire and that are intended only for members (for example, translation notes, TN) are enclosed in pointed, angle brackets <like these>.
2. All the elements in questions which require local adaptation are enclosed in square brackets. These instructions often relate to adding the name of the relevant country. For example, in South Africa “Generally, how would you describe taxes in [COUNTRY] today?” would read “Generally, how would you describe taxes in South Africa today?”
3. Every question starts with a reference between angle brackets to earlier Social Inequality questionnaires: A=1987, B=1992, C=1999, D=2009, E=2017/18 (=pretest), E revised=pretested item but changed during the discussion in the ISSP. For example: <AHEAD12: ABDE> “... how important is being born a man or a woman?” This question was asked in the Social Inequality module 1987, 1992, 2009 and in the 2017/18 pretest. Items developed for ISSP 2019 are marked by (N) in front of the question number and by NEW in angle brackets. Items new in ISSP 2019 and coming from other ISSP modules are marked by (N) in front of the question number but without NEW in angle brackets.
4. For questions for which no “Can’t choose” is provided, code non-productive or missing answer to -99.
5. The Social Inequality V module proper consists of 45 old questions and 15 new questions (60 in total; 56 attitudinal and 4 social background questions). To be consistent, we also present 1 standard background question (TOPBOT) that is strongly related to the module questions. In addition, we offer 4 background questions and 5 attitudinal questions as options. Note that according to ISSP rules the 53 attitudinal questions of the module proper need to be presented to the respondents consecutively. The background questions, both standard and optional, as well as the optional attitudes can be put in where it fits best. Our recommended order is: Q1-Q12, Q22, Q13abc, Q14abcd, Q15ab, Q16, Q17ab, Q18abc, Q19, Q20ab, Q21ab, {Q25ab}, {Q26ab}, {Q23abcd}, {Q24}. Variables in curly brackets {} are optional.
6. In general, by government we mean the central regime within a country (that is, any government that has been elected into power). In some countries the meaning of questions which refer to ‘government’ can be improved by adding ‘of any party’ after ‘government’ (to stress that it does not necessarily have to be the current government). However, for replicate items, please use the former translation.

ISSP Social Inequality V

To begin we have some questions about opportunities for getting ahead ...

Q1. Please tick one box for each of these to show how important you think it is for getting ahead in life... *(Please tick one box on each line)*

		Essential	Very important	Fairly important	Not very important	Not important at all	Can't choose
a.	<AHEAD1: ABCDE> ...how important is coming from a wealthy family?	1	2	3	4	5	8
b.	<AHEAD2: ABDE>... how important is having well-educated parents?	1	2	3	4	5	8
c.	<AHEAD3: ABDE>... how important is having a good education yourself?	1	2	3	4	5	8
d.	<AHEAD6: ABDE>... how important is hard work?	1	2	3	4	5	8
e.	<AHEAD7: ABCDE>... how important is knowing the right people?	1	2	3	4	5	8
f.	<AHEAD8: ABDE>... how important is having political connections?	1	2	3	4	5	8
g.	<AHEAD17: DE>...how important is giving bribes?	1	2	3	4	5	8
h.	<AHEAD9: ABDE>... how important is a person's race?	1	2	3	4	5	8
i.	<AHEAD10: ABDE>... how important is a person's religion?	1	2	3	4	5	8
j.	<AHEAD12: ABDE>... how important is being born a man or a woman?	1	2	3	4	5	8

<TN: The word 'race' in Q.1h should be translated referring to 'ethnicity' in the broader sense.>

<Q2a-e and Q3a-e should be on facing pages. However, they should NOT be on the same page – respondents should answer the 'ACTUAL' earnings questions first, and only then go on to answer the 'SHOULD' questions.>

<In 1992, this set of questions asked about ANNUAL income BEFORE taxes, in 1999 and 2009 countries could ask the questions in the way that was most customary in their country. You should follow the way that you have asked it before. If you did not participate in the 1992, 1999 or 2009 ISSP, you may use whichever of 'year', 'month', 'fortnight', or 'week' is most customary in your nation. Use 'before' tax or 'after' tax, according to the custom in your nation. For example, you might say: "Please write how much you think they usually earn each year before taxes", or "Please write how much you think they usually earn each week before taxes", or "Please write how much you think they usually earn each week after taxes".>

<TN: 'a large national corporation': a privately owned corporation that operates throughout the country, not a corporation owned by the government. 'Company' is also acceptable in English rather than 'corporation'. >

<TN: 'a cabinet minister in the [national] government': use the word that makes clear sense in your language. For example, in Australia it would be 'A cabinet minister in the federal government'.>

<Do not insert "Can't choose" in the questions.>

<Coding instructions:

- If answered with a range, take best estimate midpoint
- If answered DK, take –98.
- If not answered, code –99.
- If multiple answers, take first.>

Q2. We would like to know what you think people in these jobs actually earn. Please write in how much you think they usually earn each [YEAR / MONTH / FORTNIGHT / WEEK], [BEFORE / AFTER] taxes. Many people are not exactly sure about this, but your best guess will be close enough. This may be difficult, but it is very important. So please try.

Please write in how much they ACTUALLY earn each [YEAR / MONTH / FORTNIGHT / WEEK] [BEFORE / AFTER] taxes

a.	<ACTUAL2: ABCDE> About how much do you think a doctor in general practice earns?	
b.	<ACTUAL5: ABCDE> How much do you think a chairman of a large national corporation earns?	
c.	<ACTUAL12: BCDE> How much do you think a shop assistant earns?	
d.	<ACTUAL10: ABCDE> How much do you think an unskilled worker in a factory earns?	
e.	<ACTUAL11: ABCDE> How much do you think a cabinet minister in the [national] government earns?	

Q3. Next, what do you think people in these jobs ought to be paid? How much do you think they should earn each [YEAR/MONTH/FORTNIGHT/WEEK], [BEFORE/AFTER] taxes, regardless of what they actually get...

Please write in how much they SHOULD earn each [YEAR / MONTH / FORTNIGHT / WEEK] [BEFORE / AFTER] taxes

a.	<SHOULD2: ABCDE> About how much do you think a doctor in general practice should earn?	
b.	<SHOULD5: ABCDE> How much do you think a chairman of a large national corporation should earn?	
c.	<SHOULD12: BCDE> How much do you think a shop assistant should earn?	
d.	<SHOULD10: ABCDE> How much do you think an unskilled worker in a factory should earn?	
e.	<SHOULD11: ABCDE> How much do you think a cabinet minister in the [national] government should earn?

BACKGROUND QUESTIONS

<Note to designers: The background questions can be asked separately from the attitudinal questions. Country specific wording is allowed as long as it gets this information. Like other demographic and background variables, the questions can be put wherever you like in the questionnaire – they need not be with the other ISSP questions.>

<Note to designers: The age reference – “when you were [14-15-16]” in the questions below – should preferably be age 15 (PISA age). Relevant arguments to deviate are: (A) when the question or similar questions have been asked with a different referent age, and the alternative choice would make the questionnaire more consistent; (B) when age 14 or 16 is clearly more relevant in terms of educational or labor market choices.>

<Note to designers: Countries that expect the categories in Q20a and Q20b not to fit their national situation, should add country specific codes. Examples: collective farming in (post)communist countries, helper in family business/farm, apprenticeships as first jobs.>

<Note to designers: Notice that an open question about father’s and mother’s occupation is part of the background questions (Q21ab), while a crude version of father’s and mother’s occupation is included in the optional questions. Countries that decide to include these optionals Q25ab are advised to ask these optionals in-between Q20ab and Q21ab immediately before, so that the crude questions are asked first, followed by the detailed questions (i.e. Q20ab, Q25ab, Q21ab)>

Q20a. <FEMPREL> When you were [14-15-16] years old, was your father an employee, self-employed, or working for his own family’s business? If your father did not have a paid job at the time, please give information about his last job before that time. (Please tick one box only)

Q21a. <FISCO08: ABCD> When you were [14-15-16] years old, what kind of work did your father do; what was his main occupation?

Describe fully, using two words or more (*do not use initials or abbreviations*). If your father did not have a paid job at the time, please give information about his last job before that time.

<Note to designers: Answers to the open occupation question (Q21a) must be coded to the International Labour Office’s International Standard Classification of Occupations 2008 – the full 4 digit code. Note that recommendations on coding ISCO are available on the ISSP website.>

Q21b. <MISCO08: BD> When you were [14-15-16] years old, what kind of work did your mother do; what was her main occupation?

Describe fully, using two words or more (*do not use initials or abbreviations*). If your mother did not have a paid job at the time, please give information about her last job before that time.

<Note to designers: Answers to the open occupation question (Q21b) must be coded to the International Labour Office's International Standard Classification of Occupations 2008 – the full 4 digit code. Note that recommendations on coding ISCO are available on the ISSP website.>

Q22. <CLASS: ABCDE> Most people see themselves as belonging to a particular class. Please tell me which social class you would say you belong to? (*Please tick one box only*)

Lower class	1
Working class	2
Lower middle class	3
Middle class	4
Upper middle class	5
Upper class	6

<Note to designers: In the past Q22 has been asked in different formats in different countries. Please **change** to the specification here, if this is the case in your country.>
